Terry Trexler, President stated, "Sales and operations for fiscal 2007 were adversely impacted by the reduced manufactured housing shipments in Florida plus the overall decline in Florida and the nation's housing market. Industry shipments in Florida for the Company's fiscal 2007 were down approximately 47% from the same period last year. Although the current overall housing market has declined significantly this year, the long-term demographic trends still favor strong growth in the Florida market area we serve. Management remains convinced that our specific geographic market is one of the best long-term growth areas in the country and because of the strong operating leverage inherent in the Company, we expect to continue out-performing the industry. With a strong and stable economy, improved sales in the existing home market, stable unemployment and low interest rates in 2008, management expects the demand for our homes to improve. Fiscal year 2008 is Nobility's 41<sup>st</sup> year of operating in our market area and we plan to increase the level of consumer awareness and confidence in Nobility and Prestige, our retail organization, with the introduction and special promotion of more special edition homes. The Company has recently invested as a limited partner in two new Florida retirement manufactured home communities. Management's belief is that new attractive and affordable manufactured home communities for senior citizens will be a significant growth area for Florida in the future."

Nobility Homes, Inc. has specialized for 40 years in the design and production of quality, affordable manufactured homes at its two plants located in central Florida. With eighteen Company retail sales centers, a finance company joint venture, and an insurance subsidiary, Nobility is the only vertically integrated manufactured home company headquartered in Florida.
